During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

Designed by
Le TONE

1974

Citroën launches CX. It's the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. Sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard help it to succeed amongst more ordinary rivals.

2019

The spectacular design of the 100% electric 19_19 Concept is inspired by aeronautics and pushes comfort to the extreme, with a lounge on-the-move experience created by intelligent suspension. It also provides autonomous driving, a personal assistant and a range of 500 miles.

CITROËN
Origins

Discover the models that make up Citroën's extraordinary history, from 1919 to the present day.

1934

Citroën revolutionises the automotive landscape with Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

1939

Citroën launches 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous Type H, above, launched in 1948.

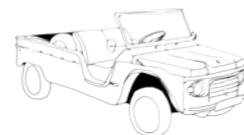

1948

The much-loved 2 CV is created as a "safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage". More than 5 million are made.

1955

Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertone, earns it the nickname 'flying saucer'. Under the skin it's just as advanced.

1968

It's a golden age for light and agile vehicles like Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

1970

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this hatchback will go on to sell around 2.5 million units.

ELEGANCE WITH PRESENCE

With a muscular profile and plenty of attitude, Citroën C5 Aircross SUV redefines the feel of its class. Imposing and bold, it's elegantly contemporary in every detail, without a trace of arrogance. At the front, there's the unmistakable and proud double chevron design and powerful curved side panels. The 360° glazed surfaces are highlighted by a dynamic chromed 'C' motif. Rear lights feature four oblong 3D LED modules, which emphasise the vehicle's broad stance.

SMOOTH UNIQUE VEHICLE

MORE COMFORT, MORE MODULARITY, ALL SUV

With the Citroën Advanced Comfort® programme influencing every stage of its design, Citroën C5 Aircross SUV is the most comfortable and modular SUV in its category. As a result, it's the perfect complement to everyday life.

POWER WITH CONTROL

GRIP CONTROL WITH HILL DESCENT ASSIST*

An SUV needs to take varied and difficult surfaces in its stride. Citroën C5 Aircross SUV provides secure traction in all conditions thanks to Grip Control. This ingenious system has five modes, which you can select instantly using a dial on the centre console. For safety and control while travelling downhill there is also Hill Descent Assist, which minimises the risk of skidding or unwanted acceleration as you descend. It works in both forward and reverse gears as well as neutral.

**Available as an option on selected versions.*

UNRIVALLED COMFORT THANKS TO CITROËN INNOVATIONS

EXCEPTIONAL FILTERING

While traditional suspension systems are made up of a shock absorber, a spring, and a mechanical stop, Citroën Advanced Comfort® Suspension adds two hydraulic stops, one for compression and one for relaxation.

For larger bumps, these hydraulic stops slow the suspension travel in a progressive way, avoiding sudden jolts and the rebound effect.

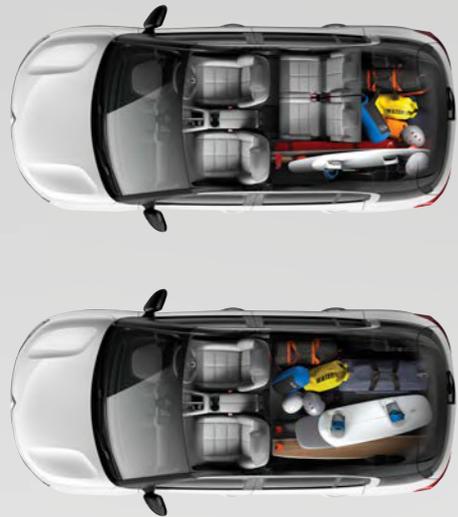

For light compressions and relaxations, these hydraulic stops create a 'flying carpet' effect to smooth out imperfections in the road.

CHANGE YOUR SPACE

You can reconfigure the roomy, flexible interior of Citroën C5 Aircross SUV to suit your needs. Sliding, reclining and foldable rear seats make it easy.

PANORAMIC LIFE

The panoramic glass sunroof makes every journey special whether it's open or closed. Filling the interior with natural light, it really contributes to the epic views enjoyed from Citroën C5 Aircross SUV. Powered by two electric motors with a safe auto-reverse function, it's easy to use and also features a handy blind for fine-tuning brightness levels.

Optional on selected versions.
